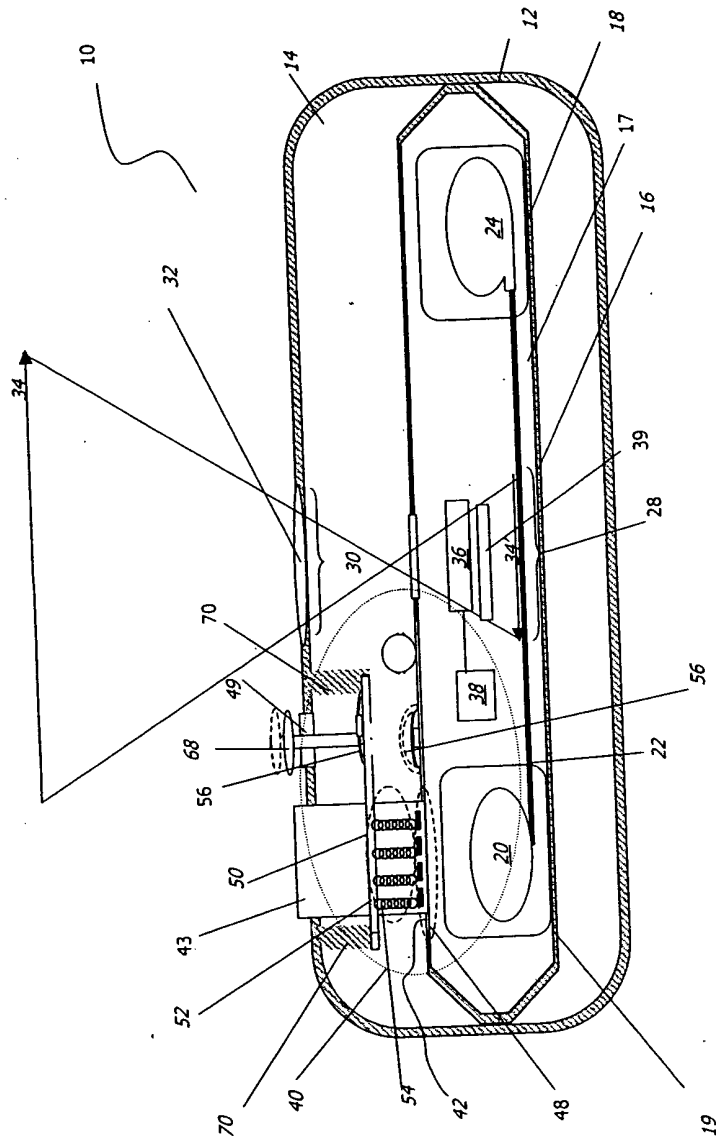

Fig. 5 — assembled view of the camera of Figs 1-3

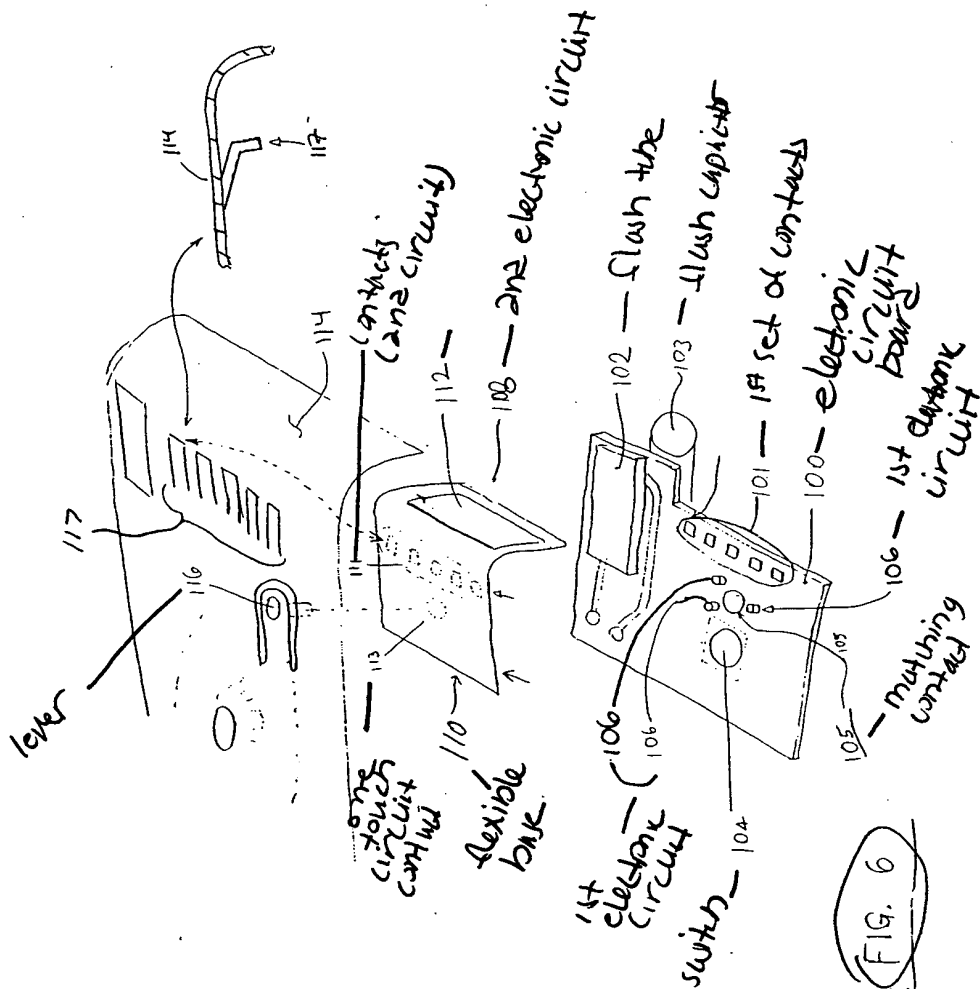

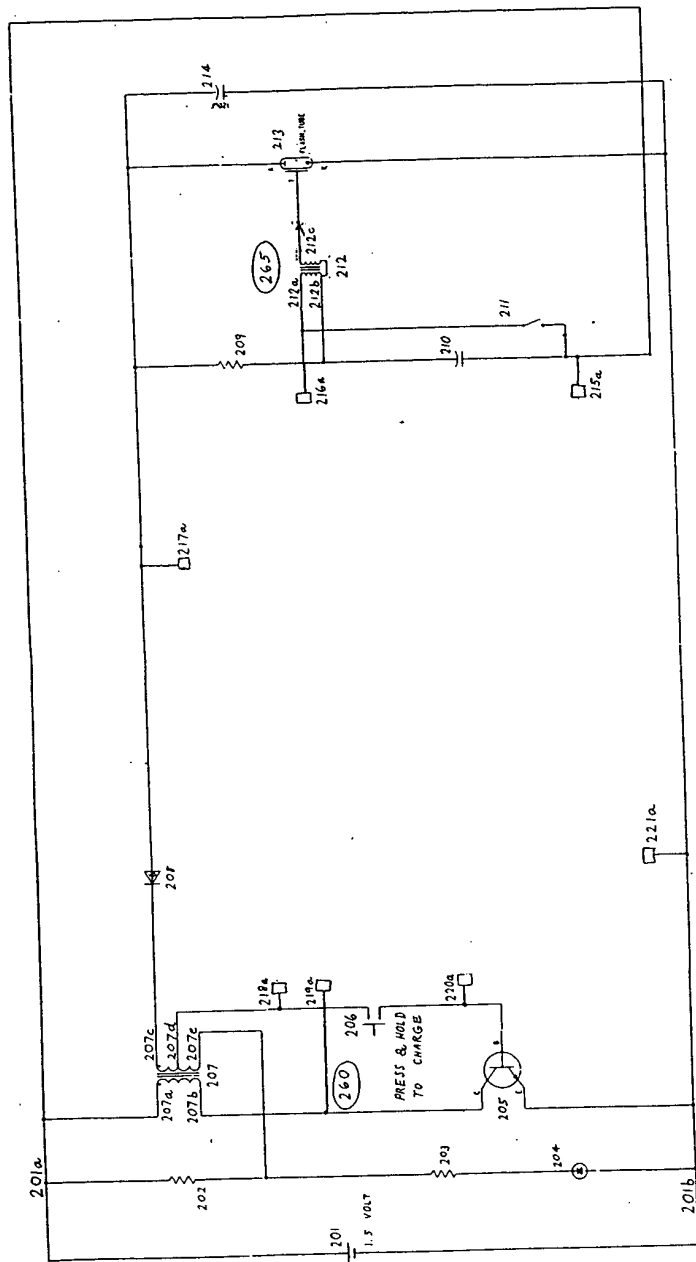

FIG. 6

~~embodiment of present invention where a flex circuit is used~~

1003560 0955007

an embodiment of
a 1st circuit for
performing a 1st set
of camera functions &
having contacts

FIG 7

FIG. 8

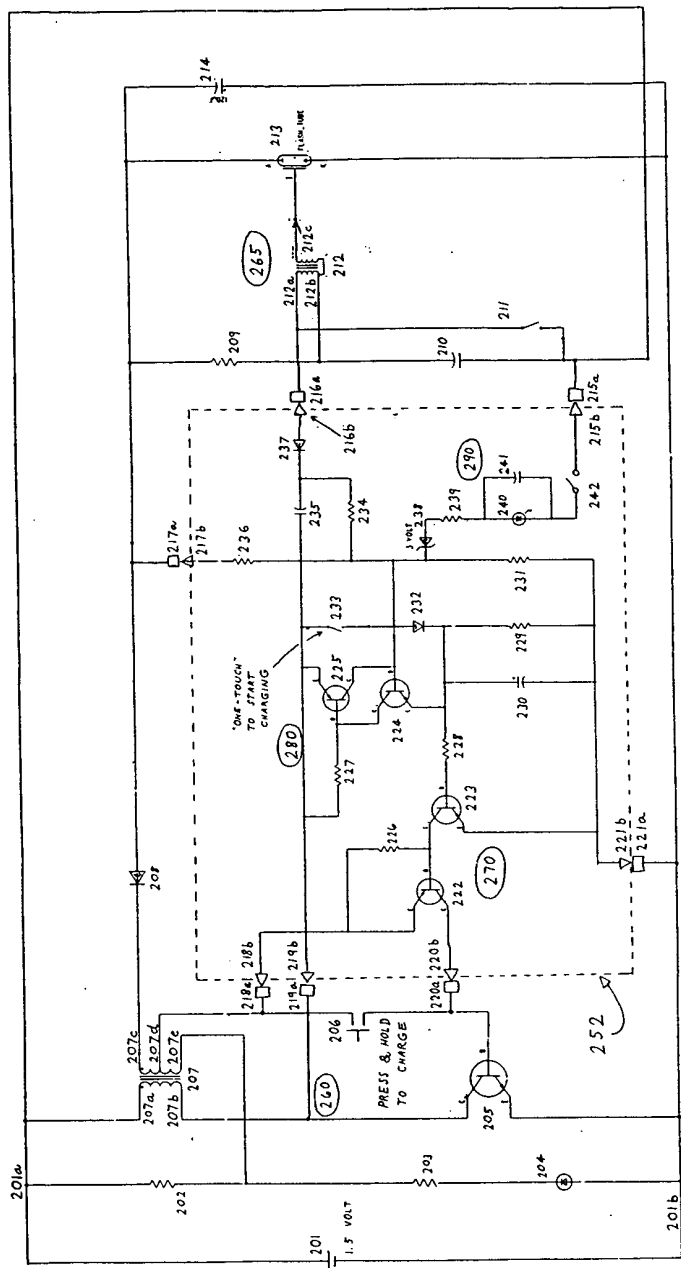

FIG. 8

embodiment of a 1st circuit
with one embodiment of a 2nd
circuit that cooperates with
the 1st circuit to a second
set of camera functions

10055001-0955001

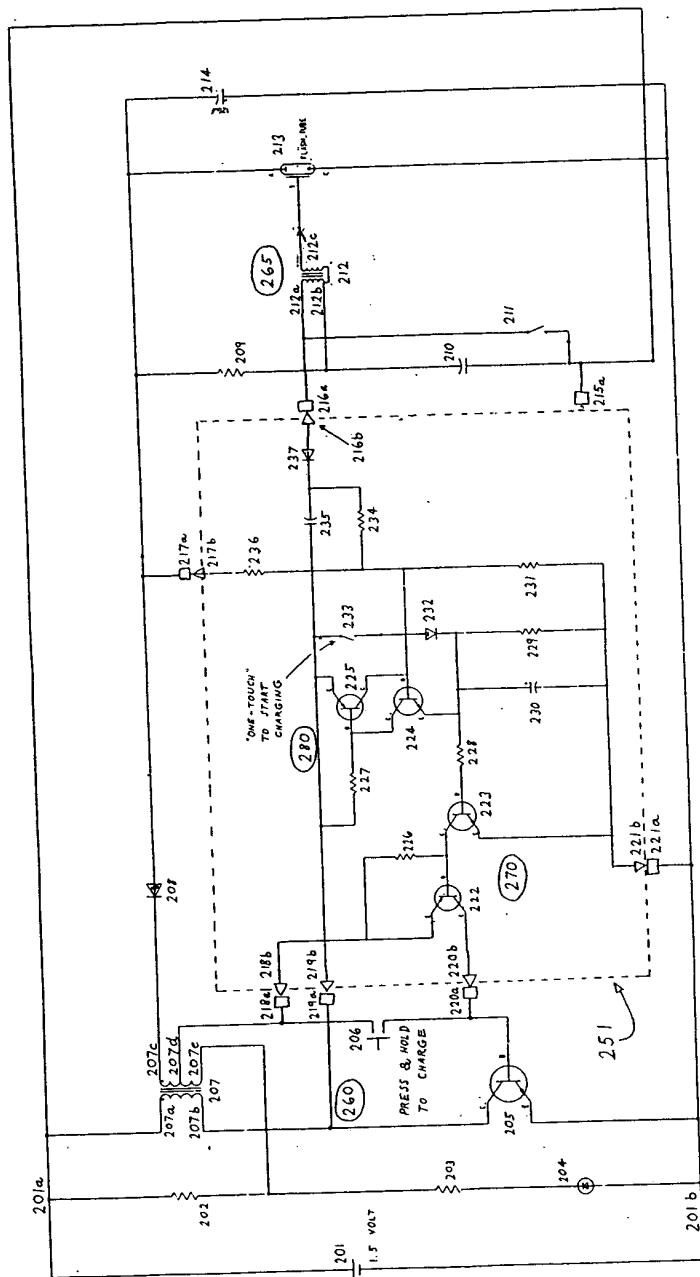

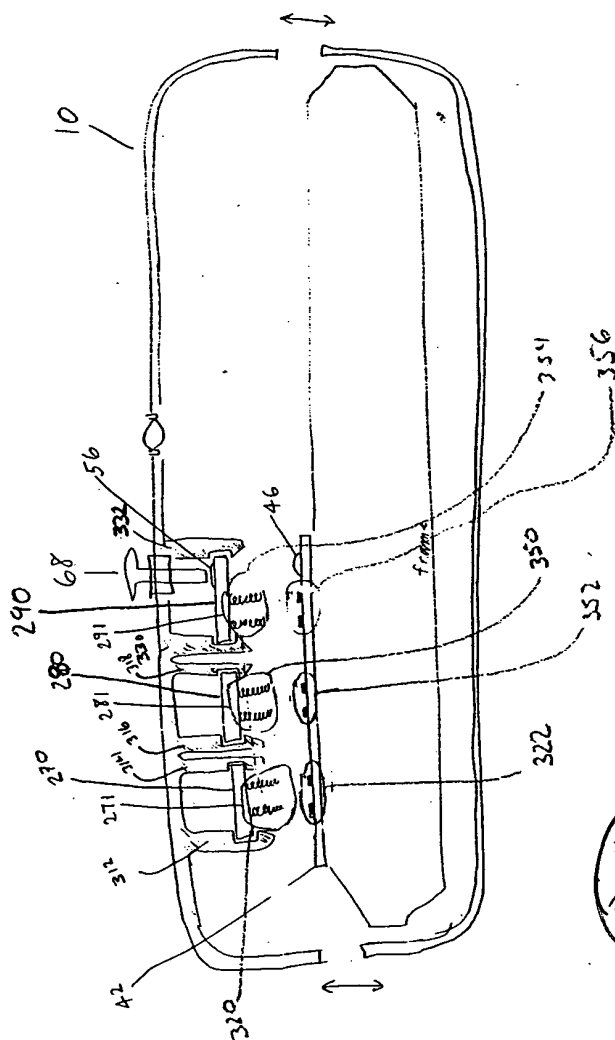

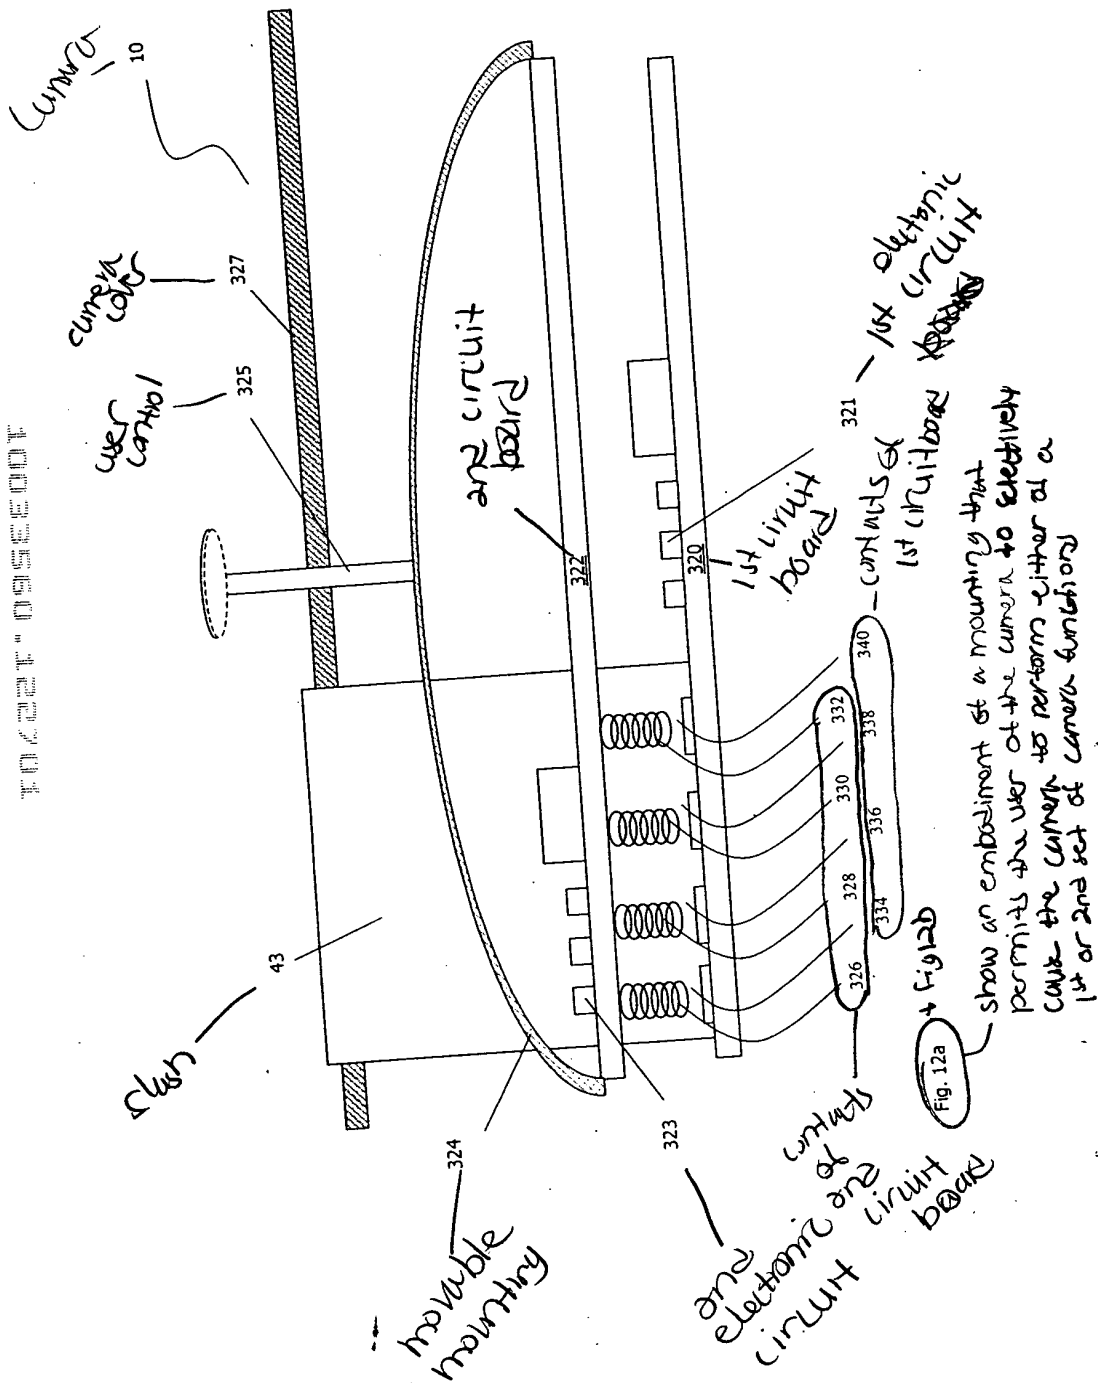

Fig 9
another embodiment
of a 2nd circuit that
cooperates with the 1st circuit
to perform a third set
of camera functions

one embedded at a camera that receives a signal from a module or computer.
